

# Lead Renovator Certification Course

Hosted by: **Rural Revitalization Corporation**

**Courses Available in Olean, NY - July 20, August 17, September 21, 2018**

## What is Lead Renovator Certification?

As of April 22, 2010 the Environmental Protection Agency (EPA) requires anyone who performs renovation, repair, or painting activity in pre-1978 housing or child-occupied facilities including schools and daycares to be Lead Safe Certified. Individuals and companies that are not certified could face fines of up to \$37,500 per day.

## How Much?

This training normally costs around \$150.00 per student. Certification is valid for 5 years.

## Who Should Attend?

Paid contractors who work in pre-1978 housing and child-occupied facilities, including: renovation and remodeling contractors, maintenance workers in multi-family housing and rental properties, roofers, siders, painters, plumbers, electricians, carpenters, heating and air conditioning, drywall and finishing, window installation contractors; and anyone else disturbing painted or coated surfaces in these types of properties.

## What's Included?

- 8 hours of classroom training led by EPA approved principal instructors
- Hands-on training to simulate real-world experience
- All necessary supplies and materials
- A comprehensive student manual
- A course completion certificate, each with your unique EPA identification number
- 8 continuing education hours for MN residential contractor remodeler license renewal

## EPA Accredited Training Provider

This EPA accredited training course is offered by ZOTA Professional Training.
