Projected Balance 5-31-25	\$ 363,000	\$ 323,500	\$ 147,000	\$ 152,500	balance for future needs.

Proj Too Low; must be care must be careful to preserve

Note: Capacity for additional debt almost non-existent since annual budget with the tax cap would have to absorb any new debt.

In 2018 about \$20k in annual GF debt will come off the budget and in 2019 an additional \$30k in annual GF debt will come off which may help. For example, the 2018/19 dump truck might become a bond issue versus a use of reserves but only if all other expenditures are under control.

Action Steps: Deaccessioning as much underutilized equipment as possible is a viable strategy to help raise equipment reserves as is finding used equipment and sharing equipment with other funds and municipalities. We have begun using this strategy and currently have roughly 30 vehicles for roughly 50 employees. This is about 12 vehicles less than 3 years ago when we began deaccessioning underutilized vehicles.

Projected Balance 5-31-25		\$ 485,000	\$ 350,000	\$ 419,000	\$ 335,000		balance for future needs.	
							Reasonable Balance	

Note: In 2017 about \$160k in annual water debt will come off the budget from a bond repayment which should be available to build back up reserves as shown above. In 2018 another \$55,000 in annual water debt will come off the budget from another repaid bond.

Action Steps: Fund has added advantage of being able to increase fees to create revenue when needed. Make sure to build reserves. Engineering study from Hunt provides some estimates for replacing fixed assets over the long-term.

Projected Balance 5-31-25	\$ 291,000	\$ (344,000)	\$ (454,000)	\$ 233,500	balance for future needs.

Proj Too Low; must be careful to preserve and use financing

Note: In 2019-20 about \$75k in annual sewer debt will come off the budget from a bond repayment which might help provided all expenses are under control. Fund has had to increase fees due to drop in commercial leachate and sewer service demand.

Unfortunately this is a stand-alone fund and excess cannot be used to assist with any other fund except to provide inter-municipal financing. Could purchase shared equipment from sewer fund and charge fee to other funds for use of equipment.

Action Steps: Keep fund in balance, plan for a capital bond and maintain reserves because this is a capital intensive fund. Plan to begin grant/bond funded project to update Sewer Plant as needed over the next few years.

**Capital Purchase Plan
Refuse Fund**

Equipment/Project TYPE TYPE DRAFT 17-18 FINAL 16-17 FINAL 15-16 FINAL 14-15 YEAR NOTES

Note 1: What impact will Allegany County landfill closure in a year or two have on fund?
 Note 2: Bond for large garbage truck and fitting within budget solved most pressing issue. Reserves now only needed to replace small truck.

Proj Too Low

Note: In 2019-20 about \$25k in annual electric debt will come off the budget from a bond repayment which may be used to supplement future reserves.
Action Steps: Use MAP program to pay for hybrid vehicles if possible.
